AMERICAN CONSULATE GENERAL LEIPZIG

Information Resource Center

The mission of the Public Affairs section of the U.S. Diplomatic Mission to Germany is to promote understanding of U.S. political, economic and social issues. Information Resource Centers provide authoritative, relevant, and timely background on both the content and context of U.S. policy issues. IRC resources are intended to meet the needs of government officials, journalists, researchers and others with a professional interest in the United States.

The Internet has become one of the key instruments through which the IRC disseminates important, current information about the U.S. to our constituency. Our Digital Information Services include daily, weekly, and monthly updates on everything from U.S. social issues to U.S.-German bilateral relations; government documents and related material on international relations; and information on standard American reference works.

Take some time to visit our virtual Information Resource Center. No matter what U.S. topic you are researching, you are sure to find up-to-date, useful information within our collection of Internet Information Websites.
